## WORK EXPERIENCE

### Front-end Developer Confidential

09/2018 - 03/2020

Miles Technology, California, US

- Developed solid corporate websites with React JS Virtual Dom and React views, rendering using components which contains additional components called custom HTML tags.
- Worked with Node.js developers, expert knowledge of modern front-end JavaScript, TypeScript, Angular, HTML & CSS, including libraries and frameworks.
- Created features for legacy Node.js codebases, cleaned them up by introducing test-driven development followed by an extensive refactoring.
- Developed a methodology to gradually transition legacy a jQuery application to React/Redux.
- Built RESTful APIs using Node.js.
- Used Bootstrap and Angular.JS, React.js and Node.js in effective web design.
- Integrated various third-party apps (Shopify, Paypal, Stripe) into multiple Node.js apps.

### Full Stack Developer Confidential

02/2017 - 05/2018

Grey Loud, Hong Kong

- Delivered prioritized solutions and customer support via a NodeJS microservice architecture which include modules for database synchronization, call routing, chatboxing, analytics, and scripted messaging using Docker containerization.
- Build prototype for various required services such as Scheduling, Logging and Notification Service using third party Node JS based JavaScript library.
- AWS EC2 instances were configured in developing and QA environments with Node.JS.
- Developed Rest Web services as well as Node Rest framework for backend services, using Mongo DB (NoSQL) for database services.

### DApp Developer Confidential

02/2021 - 11/2022

3+ long term projects / Remote position

- Rust Programming: Worked on the development and implementation of new blockchain technologies and developed some smart contracts for special tokenomics on solana network.
- Solidity Programming: Collaborated with colleagues from other departments and participated in the creation and testing of new DApps on EVM networks.
- Built and maintained strategic relationships with potential investors and business partners and brainstormed new ideas at a project.
